How to assign file types to open in
specific programs on MS
Internet Explorer

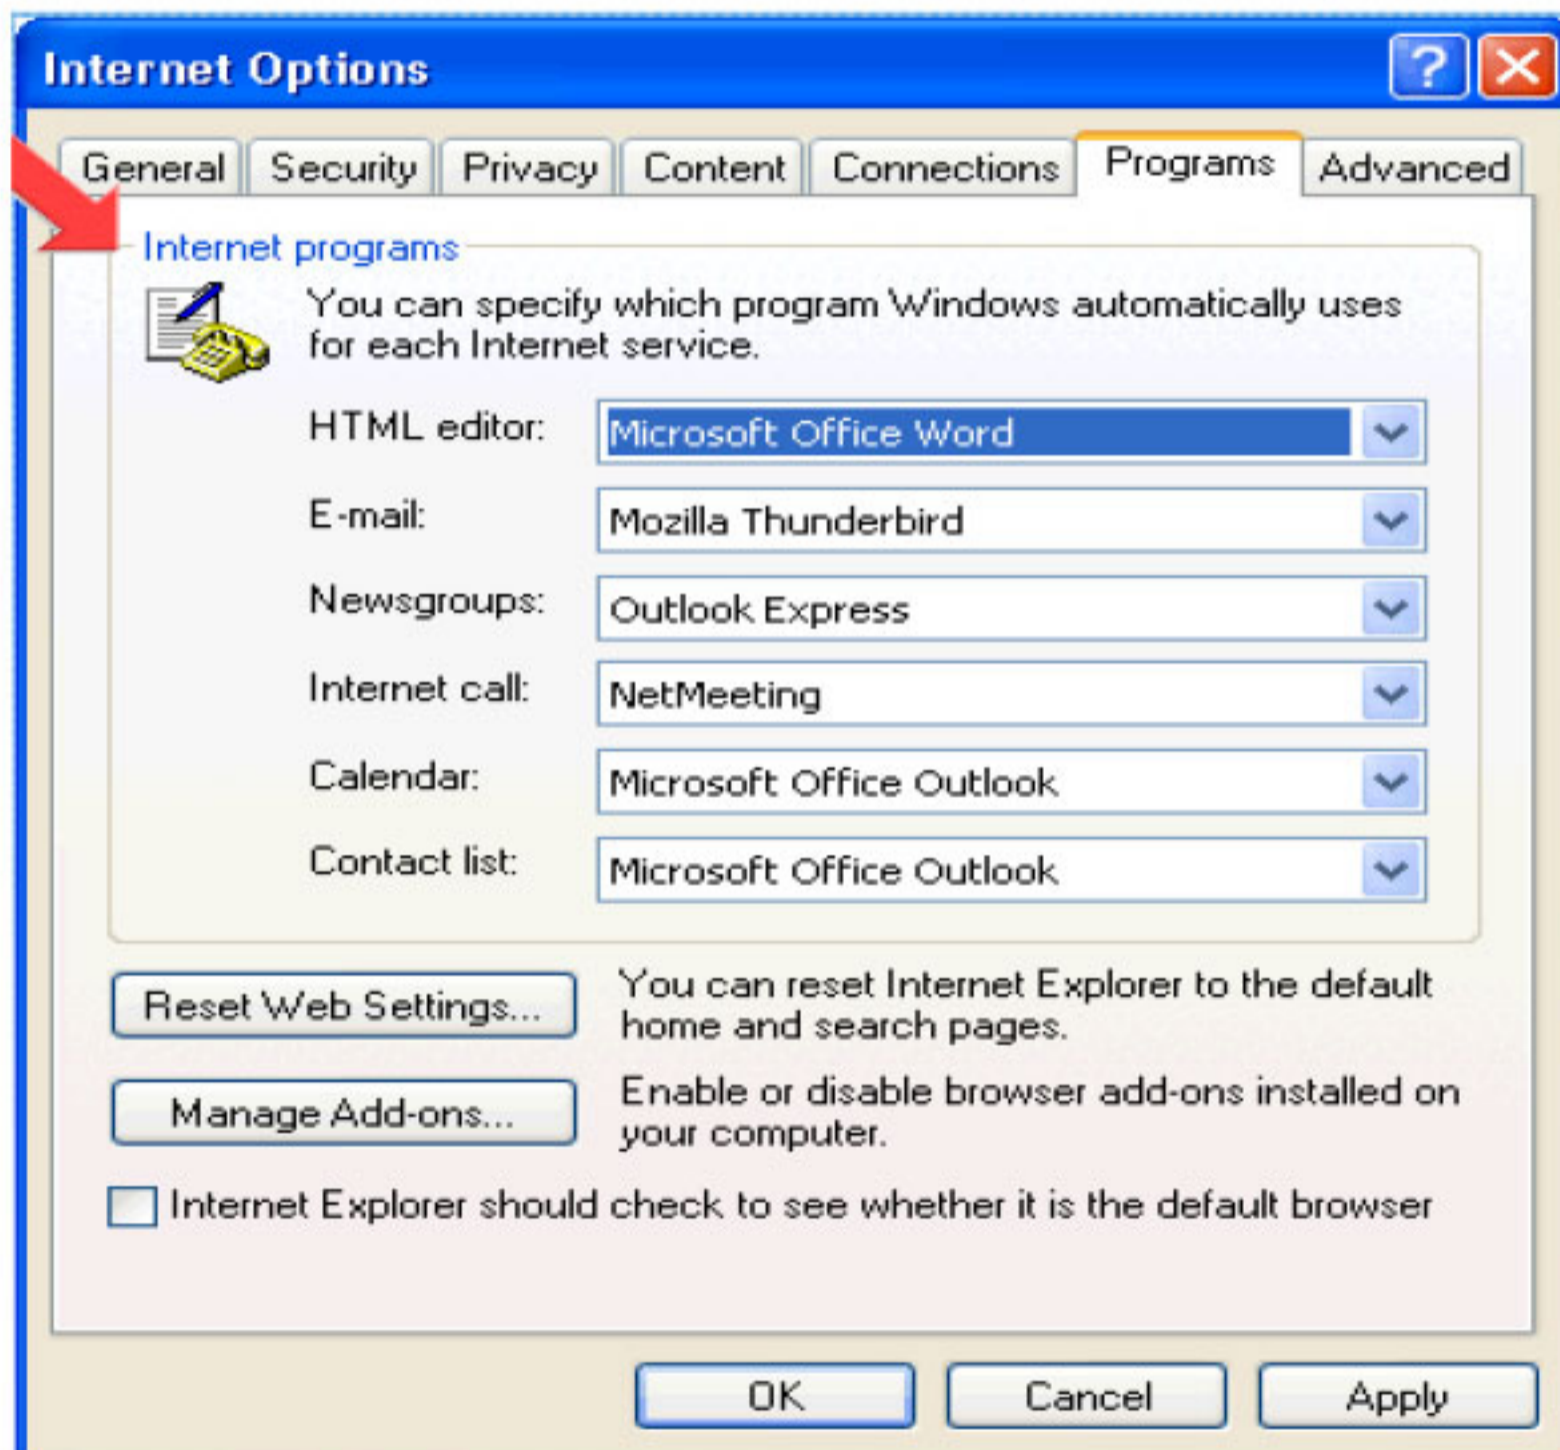

Telkom

MS Internet Explorer

Internet Programs

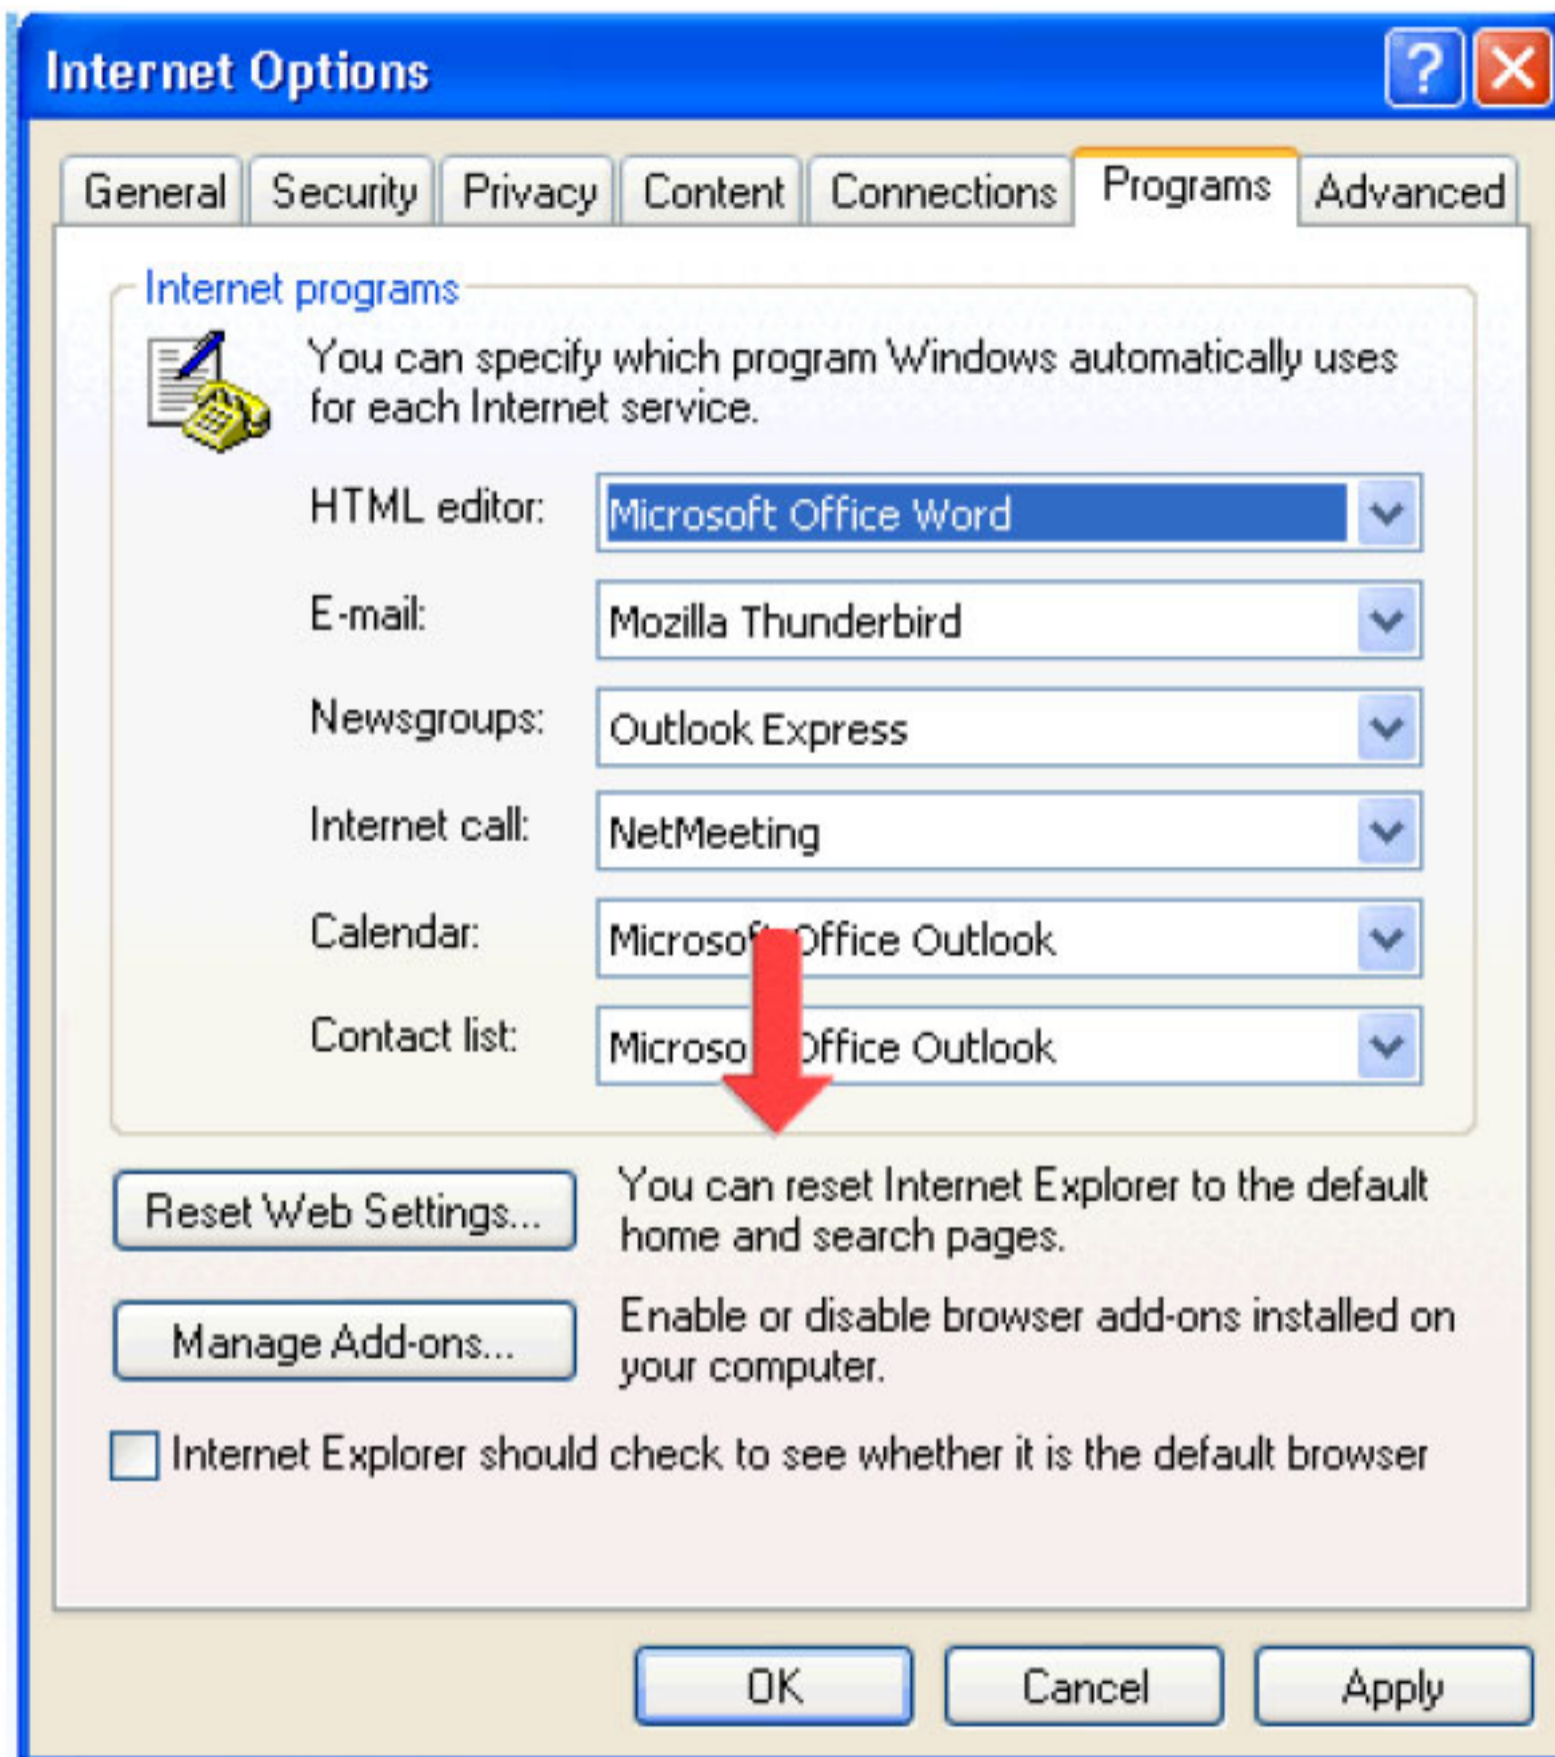

Step 1 of 3:

Here you can associate which programs must be used to open certain types of documents. For example E-mail has been adjusted to open with Mozilla Thunderbird and not the default Microsoft Outlook.

Step 2 of 3:

Here you can reset your Internet web settings, as well as manage any add-ons you might have.

Step 3 of 3:

Click on the "Advanced" tab.
