This is a reminder that your fixed Telkom Internet account includes FREE monthly mobile data. Please take advantage of this offer; it's really worth using this value-added service as you may save more than R1 750 per annum just for being a Telkom Internet customer. To help you do this easily, we've provided all the details you'll need below.

Now you can take your home Internet with you — to the restaurant, university, in the car, on holiday, or even to the office! With your FREE Telkom Internet (TI) Mobile data allocation, you will be able to use your mobile data from anywhere on any mobile device, such as a WiFi router, cellphone, tablet or 3G USB modem. The mobile data allocation can be used on up to five Telkom SIM cards. You will also be able to connect and use the Internet at home in the unlikely event that your DSL service is not working.

Click here to view the amount of FREE monthly Mobile data available per Telkom Internet product per month.

**STEP 1:**
Purchase a Telkom Prepaid SIM card

**STEP 2:**
Activate your Telkom Internet SIM

**STEP 3:**
Get it working on your device

Should you require any assistance with your TI Mobile service, please contact 10210.

We look forward to you enjoying the benefits of your FREE mobile data. This is one way we can thank you for your continuous support and loyalty and it's just one more reason why we're voted 'South Africa's best data provider'.
