

# Terms and Conditions

- Service provision is dependent on the availability of the required access infrastructure and capacity.
- The TI-DIS service configurations are available in increments of 64kbps to a maximum of 1984kbps as well as in increments of 2Mbps from 3Mbps to a maximum of 140Mbps.
- The TI-DIS Silver service is only available for speeds up to 1984kbps.
- All service configurations, except the National Plus configuration, receive static IP addresses. The IP addresses are leased through TelkomInternet and will be returned to TelkomInternet after the cancellation of the corresponding TI-DIS service, or if IP addresses are being mismanaged by the customer.
- A router is required on the customer premises to connect the LAN.
- Prices are subject to Telkom's annual price adjustment.
